Base map information shown on this FIRM was provided in digital format by Mississippi Department of Environmental Quality. Ortho imagery was originally produced by Sewall Company in 2012 and has a 0.5 foot ground sample distance. Supplemental imagery was collected by Sewall Company for Harrison County in 2012 and has a 0.5 foot ground sample distance.

LIMIT OF MODERATE WAVE ACTION: Zone AE has been divided by a Limit of Moderate Wave Action (LIMWA). The LIMWA represents the approximate landward limit of the 1.5-foot breaking wave. The effects of wave hazards between Zone VE and the LIMWA (or between the shoreline and the LIMWA for areas where Zone VE is not identified) will be similar to, but less severe than, those in Zone VE.

Limit of Moderate Wave Action (LIMWA)

This map was produced through the Mississippi Risk MAP Program, a cooperative partnership between the State of Mississippi and the Department of Homeland Security, Federal Emergency Management Agency.
