March 11, 2009

**MEMORANDUM**

**TO:** Community Executive Officer / Local Floodplain Administrator

**FROM:** Al W. Goodman, Jr., CFM  
NFIP State Coordinator / FPM Bureau Director

**RE:** **Lincoln County ‘Flood Risk Open House’**

The Mississippi Flood Map Modernization Initiative Team (MEMA, MDEQ, and MGI, LLC) will conduct a final coordination meeting with officials from Lincoln County and the city of Brookhaven at 3:00 p.m. on April 21, 2009.

On March 4<sup>th</sup>, a copy of the preliminary Flood Insurance Study (FIS) and a copy of the Flood Insurance Rate Map (FIRM) were mailed to you, which identified the flood risk in Lincoln County and the city. An important and necessary component of this process is to offer an opportunity for you, your local officials, and your citizens to review the FIS and FIRM. Please compare your current map with the preliminary map and make note of any changes which may affect your citizens. This will enable you to make any appropriate notifications to residents. We have scheduled the following two sessions, the first to be attended only by local officials, and the second is for the general public.

**Lincoln Co. Local Official’s Meeting**

When: Tuesday, April 21, 2009  
Time: 3:00 p.m. to 4:00 p.m.  
Where: County Courthouse  
301 South First Street  
Brookhaven, MS 39602

**Lincoln Co. Flood Risk Open House**

When: Tuesday, April. 21, 2009  
When: 5:00 p.m. to 7:00 p.m.  
Where: County Courthouse  
301 South First Street  
Brookhaven, MS 39602

Our staff will be able to address questions regarding flood protection, flood risk identification, and mitigation. We also encourage your floodplain, building and zoning, and engineering staff to attend as an opportunity to provide information on your local floodplain development permit requirements and ordinance, and other requirements within your community.

This “Open House” will be of particular interest to those living in or near Special Flood Hazard Areas, as well as realtors, insurance agents, developers, representatives of lending institutions, the local levee board, and members of the local media. We request that you publicize this event utilizing whatever means you deem necessary to reach this target audience, such as your local newspaper, local libraries, post offices, community web sites, local television stations, or any other relevant organizations.

The format of the Flood Risk Open House is very informal. This is not a typical government/public meeting scenario; no presentations are made and there are no formal questions/statements from the public. The citizens sign in and visit the stations where they speak directly to the team and local officials. Stations will consist of a table for each community map and an insurance/NFIP information table. MGI and MEMA will staff each table. We request that the local floodplain administrator staff jointly man the individual community map tables with us, in order to answer questions specific to your community or take comments from the citizens.

As a reminder, participation in the NFIP will require that your community adopt the new FIRM into a local flood damage prevention ordinance by the date when the FIRM goes into effect. We strongly encourage your community officials participation in these two events, for they will provide an opportunity for you and your staff to thoroughly review the preliminary FIS and FIRM and bring to the table any questions or concerns prior to your formal adoption process.

Thank you for your time and participation in this process, and we look forward to our continued collaboration. If you have any questions before April 21<sup>st</sup>, please contact me via e-mail at [agoodman@mema.ms.gov](mailto:agoodman@mema.ms.gov).

Enclosure: sample press release for your use

## **Lincoln “Flood Risk Open House” Scheduled**

General public provided opportunity to find out more about floodplain management in their community.

Officials representing the Mississippi Flood Map Modernization Initiative Team will host a Flood Risk Open House from 5:00 p.m. until 7:00 p.m. on Tuesday, April 21<sup>st</sup> in the County Courthouse, Supervisors Boardroom, located at 301 South First Street, Brookhaven, MS 39602.

The open house will provide the public with an opportunity to review the recently completed preliminary Flood Insurance Study (FIS) and its accompanying preliminary Flood Insurance Rate Maps (FIRMs) that include base flood information and identification of areas subject to flood hazards within the county. The maps for Lincoln County and the city of Brookhaven are also available for viewing at the MDEQ web site at <http://geology.deq.ms.gov/floodmaps/status.aspx?county=Lincoln>

Local, state, and federal officials will be present to provide information about flood risk, flood insurance, floodplain development requirements, and the process used for floodplain mapping. Once the preliminary FIRMs become effective, these maps will be used by floodplain permit officials, builders and developers, lenders, realtors, insurance agents, and the general public to determine flood risk.

Property owners, realtors, lenders, and insurance agents are encouraged to attend and take advantage of this opportunity to learn more about flood risk and hazard mitigation within your community.
