MEMORANDUM

TO: Community Executive Officer / Local Floodplain Administrator

FROM: Al W. Goodman, Jr., CFM
NFIP State Coordinator / FPM Bureau Director

RE: **Pike County ‘Flood Risk Open House’**

The Mississippi Flood Map Modernization Initiative Team (MEMA, MDEQ, and MGI, LLC) will conduct a final coordination meeting with officials from Pike County and the communities of Magnolia, McComb, Osyka, and Summit at 3:00 p.m. on February 24, 2009.

On January 13th, a copy of the preliminary Flood Insurance Study (FIS) and a copy of the Flood Insurance Rate Map (FIRM) were mailed to you, which identified the flood risk in Pike County and the incorporated communities. An important and necessary component of this process is to offer an opportunity for you, your local officials, and your citizens to review the FIS and FIRM. This allows for your feedback concerning flood risk management and mitigation. We have scheduled the following two sessions, the first to be attended only by local officials, and the second is for the general public.

Pike Co. Local Official’s Meeting

When: Tuesday, Feb. 24, 2009
Time: 3:00 p.m. to 4:00 p.m.
Where: Pike County Courthouse
175 S. Cherry Street
Magnolia, MS 39652

Pike Co. Flood Risk Open House

When: Tuesday, Feb. 24, 2009
When: 5:00 p.m. to 7:00 p.m.
Where: Pike County Courthouse
175 S. Cherry Street
Magnolia, MS 39652

Our staff will be able to address questions regarding flood protection, flood risk identification, and mitigation. We also encourage your floodplain, building and zoning, and engineering staff to attend as an opportunity to provide information on your local floodplain development permit requirements and ordinance, and other requirements within your community.

This “Open House” will be of particular interest to those living in or near Special Flood Hazard Areas, as well as realtors, insurance agents, developers, representatives of lending institutions, the local levee board, and members of the local media. We request that you publicize this event utilizing whatever means you deem necessary to reach this target audience, such as your local newspaper, local libraries, post offices, community web sites, local television stations, or any other relevant organizations.

The format of the Flood Risk Open House is very informal. Stations will consist of a table for each community map and an insurance/NFIP information table. MGI and MEMA will staff each table. We request that the local floodplain administrator staff jointly man the individual community map tables with us, in order to answer questions or take comments from the citizens.

As a reminder, participation in the NFIP will require that your community adopt the new FIRM into a local flood damage prevention ordinance by the date when the FIRM goes into effect. We strongly encourage your community’s participation in these two events, for they will provide an opportunity for you and your staff to thoroughly review the preliminary FIS and FIRM and bring to the table any questions or concerns prior to your formal adoption process.

Thank you for your time and participation in this process, and we look forward to our continued collaboration. If you have any questions before February 24th, please contact me via e-mail at agoodman@mema.ms.gov.

Enclosure: sample press release for your use

Pike County “Flood Risk Open House” Scheduled

General public provided opportunity to find out more about floodplain management in their community.

Officials representing the Mississippi Flood Map Modernization Initiative Team will host a Flood Risk Open House from 5:00 p.m. until 7:00 p.m. on Tuesday, February 24th in the Pike County Courthouse, Board of Supervisors Room located at 175 South Cherry Street.

The open house will provide the public with an opportunity to review the recently completed preliminary Flood Insurance Study (FIS) and its accompanying preliminary Flood Insurance Rate Maps (FIRMs) that include base flood information and identification of areas subject to flood hazards within the county. The maps for Pike County and its incorporated communities are also available for viewing at the MDEQ web site at <http://geology.deq.ms.gov/floodmaps/status.aspx?county=Pike>

Local, state, and federal officials will be present to provide the public information about flood risk, flood insurance, floodplain development requirements, and the process used for floodplain mapping. Once the preliminary FIRMs become effective, these maps will be used by floodplain permit officials, builders and developers, lenders, realtors, insurance agents, and the general public to determine flood risk.

Property owners, realtors, lenders, and insurance agents are encouraged to attend and take advantage of this opportunity to learn more about flood risk and hazard mitigation within your community.
