The map reflects more detailed and up-to-date stream channel configurations. As a result, the Flood Profiles and Floodway Data tables in transcriptions from the previous FIRM may have been adjusted to conform to these new conditions.

This map is for use in conjunction with the Flood Insurance Study report that accompanies this FIRM. Users should be aware that the Flood Insurance Study report should be utilized in conjunction with the FIRM for purposes of construction and/or other studies that may impact the property.

To obtain current elevation, description, and/or location information for Base Flood Elevations and/or other floodplain information, please refer to the separately printed Flood Insurance Study report. For information regarding conversion between the National Geodetic Vertical Datum and the North American Vertical Datum of 1988, please refer to the separately printed Flood Insurance Study report.

For information regarding conversion between the National Geodetic Vertical Datum and the North American Vertical Datum of 1988, contact the National Geodetic Survey at (301) 713-3242 or via email at FIRM.GS@noaa.gov.

To obtain more detailed information in areas where Base Flood Elevations are not shown, map users should contact appropriate community officials to determine the Base Flood Elevations.

Inquiries about this map should be directed to the Federal Emergency Management Agency at 1-800-358-9616 or via email at firm@fema.gov.
