To determine if flood insurance is available in this community, contact your insurance agent or call 1-800-358-9616 for information on available flood insurance rates.

Flood elevations in Special Flood Hazard Areas are designated on the Flood Insurance Rate Map (FIRM) as the Base Flood Elevations and represent the height above the horizontal datum at which flood waters are expected to reach during a flood of the magnitude that has a 1% chance of being equaled or exceeded in any given year. The Base Flood Elevations are used to determine flood insurance rates.

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of structures to lower flood elevations. The floodway boundaries are designated on the Flood Insurance Rate Map (FIRM) as the Floodway Boundary.

Corporations limits were compiled at a scale of 1:400 from aerial photography dated March 2006. These limits may result in slight positional differences in map features across jurisdiction boundaries. These differences do not affect the accuracy of this FIRM.
