NOTES TO USERS

The Flood Insurance Rate Maps (FIRMs) shown on this map are based on data from the Flood Insurance Study (FIS) which is the result of a joint Federal effort to provide floodplain and floodway information to communities participating in the National Flood Insurance Program. The information was compiled at a scale of 1:400 from aerial photography dated March 2006. The FIS data were analyzed in accordance with the methodology prescribed in the Flood Insurance Study report (which contains authoritative hydraulic data) to determine the floodplains and floodways that may be subject to flooding from the 1% annual chance flood, and from that data, the Flood Insurance Study (FIS) flood hazard areas were determined. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood were then shown on the Flood Insurance Rate Map (FIRM) which contains authoritative jurisdictional data. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood as determined in the FIS and shown on this FIRM were provided in digital format by the State of Mississippi.

The FEMA Map Service Center may also be reached by Fax at 1-800-358-9620 and its Corporate limits shown on this map are based on data from the Flood Insurance Study (FIS) which is the result of a joint Federal effort to provide floodplain and floodway information to communities participating in the National Flood Insurance Program. The information was compiled at a scale of 1:400 from aerial photography dated March 2006. The FIS data were analyzed in accordance with the methodology prescribed in the Flood Insurance Study report (which contains authoritative hydraulic data) to determine the floodplains and floodways that may be subject to flooding from the 1% annual chance flood, and from that data, the Flood Insurance Study (FIS) flood hazard areas were determined. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood were then shown on the Flood Insurance Rate Map (FIRM) which contains authoritative jurisdictional data. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood as determined in the FIS and shown on this FIRM were provided in digital format by the State of Mississippi.

To determine if flood insurance is available in this community, contact your insurance agent or call 1-877-FEMA MAP (1-877-336-2627) or visit the FEMA website at http://www.fema.gov/business/nfip/ for an overview map of the county. Communities table containing National Flood Insurance Program dates for each community should be consulted for possible updated or revised FIRM for this jurisdiction. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood as determined in the FIS and shown on this FIRM were provided in digital format by the State of Mississippi.

To obtain more detailed information in areas where floodplains and floodways are shown for the 1% annual chance flood, visit the National Flood Insurance Program website at http://www.fema.gov/business/nfip/ and select either Your Flood Insurance Rate Map or How to Order a Flood Insurance Rate Map. The 1% annual chance flood is the level that has a 1% chance of being exceeded in any given year. The floodplain and floodway data on this map were compiled from a variety of sources of data, the most recent of which is from the National Flood Insurance Study (FIS). The Flood Insurance Study (FIS) flood hazard areas were determined. The floodplains and floodways that may be subject to flooding from the 1% annual chance flood as determined in the FIS and shown on this FIRM were provided in digital format by the State of Mississippi.

For information regarding conversion between the National Geodetic Datum of 1929 and the North American Vertical Datum of 1988, visit the National Geodetic Survey website at http://www.ngs.noaa.gov/
