The map is for use in administering the National Flood Insurance Program. It does not
contain information on all bases disclosed in a map record, nor may it show
points of elevation or distances that differ from what is shown on this map.
Affirmative Flood Insurance Rate Map (FIRM) data is advisory only and is not
required for flood plain management purposes.

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. A data set
notwithstanding, the Federal Emergency Management Agency (FEMA), the
National Flood Insurance Program (NFIP), and the U.S. Department of Housing and Urban
Development (HUD) do not assume any liability for any errors or omissions in the
data set. Any updates, revisions, or new data are not represented on this map.

**Base Flood Elevations**

Base Flood Elevations (BFEs) shown on the map were rounded to the nearest
whole foot. The BFE is the water-surface elevation of the flood to which the
1% annual chance floodplain is subject. Where BFEs were not calculated,
information is obtained from sources such as the U.S. Army Corps of Engineers,
the National Flood Insurance Program in cases where data are not available.

**Zone Designations**

The Flood Insurance Study report (which contains authoritative hydraulic data)
may reflect stream channel configurations. As a result, the Flood Profiles and Floodway
Data tables in this map may not be consistent with the data shown on the Layer-
stream channel data. This map is for use in administering the National Flood Insurance
Program. It does not contain information on all bases disclosed in a map record, nor may it show
points of elevation or distances that differ from what is shown on this map.

**Floodway**

Certain areas not in Special Flood Hazard Areas may be protected by floodways.

**OTHER FLOOD AREAS**

To obtain more detailed information in areas where coastal flood elevations are also
provided in the Summary of Stillwater Elevations table in the Floodway
Profiles and Floodway Data tables. This map is for use in administering the National Flood
Insurance Program. It does not contain information on all bases disclosed in a map record, nor may it show
points of elevation or distances that differ from what is shown on this map.

**Jurisdictional Differences**

Certain areas in Special Flood Hazard Areas may result in slight positional differences in map features
across jurisdictional boundaries. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance
Study report for this area.

**Zone Designations**

The Flood Insurance Study report (which contains authoritative hydraulic data)
may reflect stream channel configurations. As a result, the Flood Profiles and Floodway
Data tables in this map may not be consistent with the data shown on the Layer-
stream channel data. This map is for use in administering the National Flood Insurance
Program. It does not contain information on all bases disclosed in a map record, nor may it show
points of elevation or distances that differ from what is shown on this map.

**Corporate Limits**

Certain areas in Special Flood Hazard Areas may result in slight positional differences in map features
across jurisdictional boundaries. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance
Study report for this area.

**Incorporated Areas**

Certain areas in Special Flood Hazard Areas may result in slight positional differences in map features
across jurisdictional boundaries. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance
Study report for this area.

**Coastal Flood Zones**

Certain areas not in Special Flood Hazard Areas may be protected by floodways.

**Zone Designations**

The Flood Insurance Study report (which contains authoritative hydraulic data)
may reflect stream channel configurations. As a result, the Flood Profiles and Floodway
Data tables in this map may not be consistent with the data shown on the Layer-
stream channel data. This map is for use in administering the National Flood Insurance
Program. It does not contain information on all bases disclosed in a map record, nor may it show
points of elevation or distances that differ from what is shown on this map.
