This map was produced through the Mississippi Flood Map Modernization Initiative, a joint effort of the Federal Emergency Management Agency (FEMA) and the National Geodetic Survey (NGS) to modernize the National Flood Insurance Program (NFIP) flood maps. The NFIP is a program that provides flood insurance to property owners in areas designated as special flood hazard areas. The map was developed using elevation data, flood history data, and other relevant information to depict areas that are at risk of flooding.

This map is for use in administering the National Flood Insurance Program. It does not depict protected areas. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for this jurisdiction. Elevations shown in the Summary Flood Elevation tables contained within the Flood Insurance Study report for this jurisdiction. Elevation data presented in the FIRM represent rounded whole-foot elevations. These BFEs are based on the National Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the FEMA website at http://www.fema.gov/business/nfip/ for an overview map of the county.

The National Flood Insurance Program (NFIP) is designed to help people and businesses plan for, and recover from, the damaging effects of flooding. Flood insurance is available to homeowners and renters in communities participating in the NFIP. Flood insurance is not federal assistance; it is a way to help reduce flood losses. To obtain more detailed information on flood insurance, contact your local insurance agent or call 1-877-FEMA MAP (1-877-336-2627) for an overview map of the county.

For further information on flood insurance, please contact your local insurance agent or call 1-877-FEMA MAP (1-877-336-2627) for an overview map of the county.

To obtain more detailed information on areas within Base Flood Elevations (BFEs) and/or Special Flood Hazard Areas, please contact the National Flood Insurance Program at 1-800-638-6620.
