NOTES TO USERS

This map was produced through the Mississippi Flood Map Modernization Initiative, a project funded through the Federal Emergency Management Agency.

This map reflects more detailed and up-to-date floodplain information than the FIRM produced prior to July 20, 2010. The limits of the floodplains shown on this map are based on the best data available at that time. Flood elevations on this map are referenced to the North American Vertical Datum of 1988.

To determine if flood insurance is available in this community, contact your insurance agent or call 1-800-358-9616 for information on available flood insurance products. Available products may include previously issued Letters of Map Change, as well as a listing of the panels on which each community is located.

They may reflect differences in datum, vertical control, and/or digital versions of this map. Differences in datum, vertical control, and/or digital versions of this map may reflect horizontal and vertical datum changes, as well as a change in the reference spheroid. Differences in datum, vertical control, and/or digital versions of this map do not affect the accuracy of this FIRM.

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstacles to ensure proper functioning of the floodway. For information on flood control structures for this jurisdiction, refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance Study report that accompanies this FIRM. Users should be aware that Letters of Map Change, as well as a listing of the panels on which each community is located, were also transferred from the previous FIRM. Differences in datum, vertical control, and/or digital versions of this map do not affect the accuracy of this FIRM.

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstacles to ensure proper functioning of the floodway.
