The map is for use as a planning tool by Federal Flood Insurance Program (FFIP) and other agencies. Information on the standards and characteristics of flood hazards depicted on this map was derived from available government data, studies, and other sources. This map is intended for implementation only as a planning tool for flood hazards. It should not be used for regulatory or legal purposes, or for use in insurance claims. Community flood plain management officials and other individuals should refer to the Federal Flood Insurance Rate Map (FIRM) for regulatory and legal purposes. The FIRM contains authoritative flood data and should be consulted for regulatory and legal purposes.

Central flood plains and floodways are delineated and presented on the Flood Insurance Rate Map (FIRM) for each of the United States. The FIRM is the only authoritative source of flood data. The Flood Insurance Rate Map (FIRM) contains authoritative flood data, including floodway data and flood heights. The FIRM should be consulted for regulatory and legal purposes. The Flood Insurance Rate Map (FIRM) contains authoritative flood data, including floodway data and flood heights. The FIRM should be consulted for regulatory and legal purposes.

The map depicts the flood hazard areas on a county-wide scale. The flood hazard areas are depicted on the map using the following symbols:

- **Zone A**: Areas subject to flooding from a 1% annual chance floodplain.
- **Zone AO**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated.
- **Zone AR**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone X**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone A1**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AO1**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AR1**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone X1**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone A2**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AO2**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AR2**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone X2**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone A3**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AO3**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone AR3**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.
- **Zone X3**: Areas subject to flooding from a 1% annual chance floodplain and where the floodway data have been updated and a new floodway is established.

The map also includes the following symbols:

- **Water bodies**: Streams, rivers, lakes, and other bodies of water.
- **Roads**: Highways, county roads, and other roads.
- **Buildings**: Residential and commercial buildings.
- **Floodways**: Areas subject to flooding from a 1% annual chance floodplain.
- **Flood Insurance Rate Map (FIRM)**: The authoritative source of flood data.
