The map is for use in administering the National Flood Insurance Program. It does not reflect the full extent of the floodplain boundary as determined by the Community Flood Insurance Study. "Zone AE" means that properties in the Special Flood Hazard Area are subject to a 1% annual chance flood event. The Special Flood Hazard Area is the floodplain boundary shown on this map. The 1% annual chance floodplain boundary is the 100-year floodplain boundary. The 100-year floodplain boundary is the boundary established by the 1% annual chance flood. This map reflects more detailed and up-to-date pertinent floodway data than the Flood Insurance Study report for this jurisdiction. The Flood Insurance Study report for this jurisdiction contains authoritative hydraulic data. Refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

Areas to be protected from 1% annual chance flood event by a Federal flood control project are designated by "LEVEE." Special Flood Hazard Areas (SFHAs) are designated "ZONE AE." CBRS areas and OPAs are normally located within or adjacent to Special Flood Hazard Areas. CBRS areas and OPAs are designated "ZONE A." Base Flood Elevations (BFEs) and/or floodway data are provided in the Flood Insurance Study report for this jurisdiction.

For further information concerning the National Flood Insurance Program, contact the City of Meridian, Federal Emergency Management Agency.

Significant FIRM panel locators. For map indexing, please refer to the separately printed Map Index, Flood Insurance Rate Map (FIRM) PANEL LOCATOR, FIRM PANEL INDEX, or FIRM PANEL LOCATOR MAP.

Additional areas in a Special Flood Hazard Area may be protected by flood control structures. These areas are designated "LEVEE." The property owner in the preparation of this map was sent alood Prone Mapping Data Packet (MPD) containing Flood Insurance Rate Map data to update and/or digital versions of this map.
