Flood depths of 1 to 3 feet (usually areas of ponding); Base Flood Elevations determined.
Areas determined to be outside the 0.2% annual chance floodplain.

For questions concerning the National Flood Map Number for a specific jurisdiction, contact the FEMA Flood Insurance Study (FIS) Center at 1-877-FEMA MAP (1-877-336-2627) or visit its website at FEMA.gov.

To obtain more detailed information in areas where flood elevations are not shown on this map, refer to the Flood Insurance Study report for information on flood control structures for this jurisdiction.

Turning points or other locations of interest are shown on the map. Elevations shown in the Summary of Stillwater Elevations table are rounded whole-foot elevations.

Coastal Base Flood Elevations (BFEs) shown on the FIRM represent rounded whole-foot elevations. These BFEs are sourced from the FEMA-HAZUS model.

To verify current corporate limit locations, please refer to the separately printed Cross section line used in the preparation of this map was State Plane Mississippi East FIPS 1040000 FT horizontal datum. For information regarding conversion between the National Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the Geodetic Survey at Silver Spring, Maryland 20910-3282.

For information on flood control structures for this jurisdiction, refer to Section 2.4 "Flood Protection Measures" of the Flood Insurance Study report. To obtain more detailed information in areas where flood elevations are not shown on this map, refer to the Flood Insurance Study report.
