NOTES TO USERS

The map is for use by communities and the public in matters of community planning and development, erosion control, flood insurance, and flood plain management. It is not to be used in conjunction with any Federal, State, or local standards for construction or land use regulations.

For an overview map of the county, see page 2 of the flood hazard map for this area. A community map repository with the same name as this FIRM panel is also available for more detailed information.

For community map revision history prior to countywide mapping, refer to the Community Map Repository section of this FIRM panel.

The map is based on data provided by the Federal Emergency Management Agency (FEMA) and the United States Department of Agriculture (USDA) Forest Service, and is intended to provide a representation of the flood hazard and floodplain areas in the community. The map is not intended to be used for design or construction purposes and should not be relied upon for such purposes.

The map is provided in digital format and is updated periodically by FEMA. The map is not intended to be used as a substitute for the flood hazard data contained in the Flood Insurance Study (FIS) report for this area. The map is intended to be used as an overview map for community planning and development purposes.

The map is subject to change and may be updated periodically by FEMA. The map is not intended to be used for design or construction purposes. The map is intended to be used as an overview map for community planning and development purposes.

For questions about this map or the community map repository, contact the Community Map Repository section of this FIRM panel.
