The map is for use with statements on the Special Flood Hazard Areas (SFHA) panel. It is intended to show Special Flood Hazard Areas (SFHA). Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average flood depths of less than 1 foot or with drainage areas less than 1 square mile; and areas determined to be outside the 0.2% annual chance floodplain.

Note: Areas of 1% annual chance flood may be protected by Federal flood control structures, and areas determined to be outside the 0.2% annual chance floodplain may be protected by levees from 1% annual chance flood. Areas in which flood hazards are undetermined, but possible, are shown in the Undetermined (U) areas on the map. Area boundaries may be determined to be within the 0.2% annual chance floodplain by visual inspection or by measuring flood heights.

Legend:
- ZONE A: Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average flood depths of less than 1 foot or with drainage areas less than 1 square mile; and areas determined to be outside the 0.2% annual chance floodplain.
- ZONE A99: Areas of 1% annual chance flood with average flood depths of less than 1 foot or with drainage areas less than 1 square mile.
- ZONE D: Areas protected by levees from 1% annual chance flood.
- OTHER FLOOD AREAS: Areas determined to be outside the 0.2% annual chance floodplain, areas protected by levees from 1% annual chance flood, and areas determined to be outside the 0.2% annual chance floodplain.
- CBRS and OPA boundary: Baseline reference systems for surveying and mapping floodplains.
- Andhra Pradesh: Baseline reference systems for surveying and mapping floodplains.

Notes to Users:
- The map is for use with statements on the Special Flood Hazard Areas (SFHA) panel. It is intended to show Special Flood Hazard Areas (SFHA). Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average flood depths of less than 1 foot or with drainage areas less than 1 square mile; and areas determined to be outside the 0.2% annual chance floodplain.
- To determine the vertical datum and horizontal datum, refer to the National Geodetic Survey at http://www.ngs.noaa.gov/.
- For information regarding conversion between the National Geodetic vertical datum and horizontal datum, contact the National Geodetic Survey at http://www.ngs.noaa.gov/.
- To obtain current elevation, description, and/or location information for flood control structures for this jurisdiction, refer to the Information Services Branch of the National Geodetic Survey at http://www.ngs.noaa.gov/.
