NOTES TO USERS

To obtain current elevation, description, and/or location information for areas shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (503) 324-5131 or visit its website at http://www.ngs.noaa.gov/.

Areas subject to flooding by the 1% annual chance flood. Areas of Special Flood Hazard include floodplains that have been determined to be within the 0.2% annual chance floodplain.

Areas determined to be outside the 0.2% annual chance floodplain.

Boundary dividing Special Flood Hazard Area Zones and CBRS and OPA boundary.

Boundary dividing Special Flood Hazard Areas of different Base Flood Elevations.

Base Flood Elevations determined.

The Flood elevations on this map are referenced to the North American Vertical Datum of 1988. Flood elevations shown on this map are based on the best data available at the time of the Flood Insurance Study report (which contains authoritative hydraulic data) may reflect differences in vertical datum. For information regarding conversion between the National Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the NGS Information Services page or contact the NGS Information Services Branch.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) and/or Summary of Stillwater Elevations tables contained within the Flood Insurance Study report (which contains authoritative hydraulic data) are shown on this map, please contact the Information Services Branch of the National Geodetic Survey. To obtain current elevation, description, and/or location information for areas shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (503) 324-5131 or visit its website at http://www.ngs.noaa.gov/.

For information regarding conversion between the National Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the NGS Information Services page or contact the NGS Information Services Branch.

To verify current corporate limit locations.

The Flood elevations shown on this map apply only landward of 0.0' vertical datum unless noted otherwise on the map.

Areas subject to flooding from the LITTLE TALLAHATCHIE RIVER 209R. 7 W.

Areas subject to flooding from the LITTLE TALLAHATCHIE RIVER 209R. 6 W.
