NOTES TO USERS

To determine elevation information in areas where Base Flood Elevations (BFEs) and/or Coastal Base Flood Elevations (CBFEs) are shown on the FIRM, the elevation values must be compared to structure and ground elevations referenced to a vertical datum. The flood elevations shown on the FIRM are rounded whole-foot elevations. These flood elevations must be compared to structure and ground elevations referenced to a vertical datum. The flood elevations shown on the FIRM for this jurisdiction are intended for flood insurance rating purposes only and should not be used as the sole basis for floodplain management purposes when they are higher than the elevations shown on this FIRM. The flood elevations shown on this FIRM for this jurisdiction are intended for flood insurance rating purposes only and should not be used as the sole basis for floodplain management purposes when they are higher than the elevations shown on this FIRM.

Federal Emergency Management Agency

LEGEND

The following symbols are shown on the FIRM to convey the floodplain information:

Floodplain boundary

0.2% annual chance floodplain boundary

1% annual chance floodplain boundary

0.5% annual chance floodplain boundary

Zone A boundary

Zone AH boundary

Zone AO boundary

Zone VE boundary

1% annual chance floodplain boundary

Floodway boundary

Floodway boundary

Zone D boundary

300-foot floodway boundary

100-foot floodway boundary

Base Flood Elevations

Coastal Base Flood Elevations (CBFEs)

Coastal flood elevations shown on this FIRM are intended for flood insurance rating purposes only and should not be used as the sole basis for floodplain management purposes when they are higher than the elevations shown on this FIRM.

CBFEs shown on this FIRM are intended for flood insurance rating purposes only and should not be used as the sole basis for floodplain management purposes when they are higher than the elevations shown on this FIRM.
