To determine if flood insurance is available in this community, contact your insurance agent or call 1-800-358-9616 for information on available flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths of 3 to 6 feet (small streams, ditches, or shallow channels); and depths of 6 to 9 feet (large rivers). Special Flood Hazard Area formerly protected from the 1% annual chance flood by levees may have been adjusted to conform to these new elevation data. If you have previously purchased flood insurance, a letter should be consulted for possible updated or additional flood heights. This map reflects more detailed and up-to-date information than that shown on the previous FIRM for this jurisdiction. The floodplains and floodways that were shown on this map, please contact the Information Services Branch of the National Geodetic Survey at the following address: National Geodetic Survey SSMC-3, #9202, Stennis Space Center, MS 39529, or call 1-800-433-3719. For information about the most recent elevation data available for this community, contact the National Geodetic Survey at: National Geodetic Survey, NGSC-1, Marine View Drive, Stennis Space Center, MS 39529. The flood elevations must be compared to structure and ground elevations referenced to North American Vertical Datum of 1988, visit the NGSC Geodetic Vertical Datum of 1929 and the North American Vertical Datum of 1988, visit the NGS Information Services, NOAA, N/NGS12, 325 N. Water St., Stennis Space Center, MS 35952, or call 1-800-433-3719.

To order FIRM panels, call 1-800-358-9616 for map availability and ordering instructions.
