Flood depths of 1 to 3 feet (usually areas of ponding); Base Flood Elevations (BFEs) determined.

1% annual chance or greater flood.

These BFEs must be compared to structure and ground elevations referenced to the National Geodetic Vertical Datum of 1929 (NGVD29). Elevations shown in the Summary Table and the 1% annual chance floodplain are derived from this datum.

To determine if flood insurance is available in this community, contact your insurance agent or call (301) 713-3242. See the Flood Insurance Study report for information on flood control structures for this jurisdiction. Elevations shown in the Summary Table and the 1% annual chance floodplain are derived from this datum.

These flood elevations must be compared to structure and ground elevations referenced to the National Geodetic Vertical Datum of 1929 (NGVD29). Elevations shown in the Summary Table and the 1% annual chance floodplain are derived from this datum.

To verify current corporate limit locations, refer to the Flood Profiles and Floodway Data tables in the Flood Insurance Study report for this jurisdiction. Elevations shown in the Summary Table and the 1% annual chance floodplain are derived from this datum.
