NOTES TO USERS

The map is for use by authorized personnel of the Department of Homeland Security. It may not be reproduced, used, or disclosed to the public or other agencies without the written permission of FEMA. Maps of this type are generally limited to use by the issuing government agencies. The data and product(s) generated hereunto shall not be sold, assigned, or transferred to any third party without the written permission of FEMA.

To obtain more detailed information in areas shown on the map as Special Flood Hazard Areas, Base Flood Elevations, Floodways, Floodplains, and other areas subject to flooding, contact your local FEMA Regional Office shown below for an overview map of the county or the City/County Flood Insurance Rate Map (FIRM) for the subject jurisdiction. The map data and supporting reports can be ordered from FEMA at a cost of $100 per map panel.

To determine if flood insurance is available in this community, contact your insurance agent or call the National Flood Insurance Program (NFIP) Customer Service Center at (1) 877-FEMA MAP (1-877-336-2672) or visit their website at http://www.fema.gov/business/nfip/ for further information about the flood insurance program.

To verify current corporate limit locations after this map was published, map users should contact appropriate community officials. Because changes due to annexations or de-annexations may have occurred since publication, users must be aware that the map data may not reflect any subsequent changes.

The jurisdiction for this map is the City of Tishomingo, Tishomingo County, Mississippi.

This map reflects more detailed and up-to-date floodplains and floodways that were computed at cross sections and interpolated between those shown on the previous FIRM for this jurisdiction. The floodplains and floodways that are shown on this map are based on the best data available at the time of publication. Discussions in the Summary of Notes section and the companion Flood Insurance Study (FIS) report should be utilized in conjunction with the FIRM for purposes of construction and/or floodplain management.

The data and product(s) generated hereunto shall not be sold, assigned, or transferred to any third party without the written permission of FEMA.

LEGEND

Notice to User: The information on this map is subject to change without notice and may contain errors, omissions, and/or inaccuracies. This map is intended for general informational purposes only and is not intended for navigational purposes. The Floodway boundary on this map is not intended for flood control purposes. The Special Flood Hazard Area boundary on this map is not intended for flood insurance rating purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevation data presented in the FIS report should be utilized in conjunction with the FIRM for purposes of construction and/or floodplain management.

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstructions for the protection of life and property within the floodplain.

The Special Flood Hazard Area is the areas subject to 1% chance of being equaled or exceeded in any given year. The Special Flood Hazard Area is the area of flood hazard within which Base Flood Elevations are to be determined.

The Base Flood Elevations determined. For areas of alluvial fan flooding, velocities also determined.
