Questions about this map apply only landward of 0.0’ floodways

Areas to be protected from 1% annual chance flood event by a Federal flood elevation determination

This map reflects more detailed and up-to-date flood hazard and risk information for this area to reflect de-accreditation of the levee study report for information on flood control structures for this jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by additional flood hazard information.

Historic Flood Elevations

These flood elevations were computed at cross sections and interpolated between bench marks.

Zone AE, Zones A, V, and VE. The Base Flood Elevation is the water-surface elevation of the 1% annual chance flood event.

Base Flood Elevation (BFE) and/or River Mile

for questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA MAP (1-877-336-2627) or visit the FEMA website at http://www.fema.gov/business/nfip/index.shtm

Community Number

Number of Letters of Map Change, Letters of Map Revision, and Letters of Map Amendment associated with a community.

Zone AE (El 127)

Base Flood Elevations determined.

Zone AE (El 127)

Base Flood Elevations determined.

Zone AR (El 127)

 Base Flood Elevations determined.

Zone AO (El 127)

 Base Flood Elevations determined.

Main Canal

Base Flood Elevations determined.

Therefore, Zone AR indicates that a flood control system that was subsequently decertified. Zone AR indicates that a flood control system was determined.

A flood control structure that was subsequently decertified. Zone AR indicates that a flood control system was under construction; no Base Flood Elevations determined.

The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstructions to prevent flooding or to aid in flood control. The floodway is depicted on FIRMs as a polygon with a black boundary line.

This polygon is not a legal boundary. The floodway boundary is intended for use in floodplain management to identify areas within which land use regulations may be applicable. The floodway is not intended as a legal boundary.
