This Firm was produced through the Mississippi Flood Map Modernization Initiative, a cooperative project of the Federal Emergency Management Agency, the Mississippi Department of Environmental Quality, and the Mississippi Coastal Management Program.

NOTES TO USERS

The map represents the locations of areas subject to flood hazards as determined on the date of the flood hazard analysis report and shown on the Flood Insurance Rate Map (FIRM) for the jurisdiction. The map is not a statement of flood insurance policy and is not intended to mean that flood insurance is either required or not required in the jurisdiction. The map shows the areas subject to flood hazards for only the portion of the jurisdiction shown on the map. For information on flood insurance, contact the flood insurance carrier of your choice.

1. Areas Flooded by Base Flood Events:
   - Areas subject to a 1% annual chance flood.
   - Area Subject to Coastal Flood Hazards (VE Zone) - Areas subject to a 1% annual chance flood, with coastal flood hazards.

2. Areas Subject to Flood Hazards:
   - Zone A - Areas subject to a 1% annual chance flood.
   - Zone OR - Areas subject to a 1% annual chance flood, with very high velocity flood hazards.

3. Areas Not Subject to Flood Hazards:
   - Zone X - Areas not subject to a 1% annual chance flood.

4. Special Flood Hazard Areas:
   - Special Flood Hazard Areas - Areas subject to a 1% annual chance flood, with flood hazard(s) that differ from what is shown on this map.

5. Flood Insurance Study (FIS) Report:
   - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

6. FIRM Panels:
   - FIRM Panels - Contains FIRM data for the area shown on this map.

7. Floodway Areas:
   - Floodway Areas - Areas subject to a 1% annual chance flood, with floodway boundaries.

8. Other Areas:
   - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

9. Flood Elevations:
   - Flood Elevations - Elevations subject to a 1% annual chance flood.

10. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

11. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

12. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

13. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

14. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

15. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

16. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

17. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

18. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

19. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

20. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

21. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

22. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

23. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

24. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

25. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

26. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

27. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

28. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

29. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

30. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

31. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

32. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

33. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

34. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

35. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

36. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

37. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

38. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

39. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

40. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

41. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

42. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

43. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

44. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

45. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

46. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

47. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

48. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

49. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

50. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

51. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

52. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

53. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

54. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

55. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

56. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

57. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

58. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

59. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

60. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

61. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

62. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

63. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

64. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

65. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

66. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

67. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

68. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

69. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

70. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

71. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

72. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

73. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

74. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

75. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

76. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.

77. Flood Elevations:
    - Flood Elevations - Elevations subject to a 1% annual chance flood.

78. Floodway Boundary:
    - Floodway Boundary - Boundaries of areas subject to a 1% annual chance flood with floodway boundaries.

79. Flood Insurance Study (FIS) Report:
    - Flood Insurance Study report - Contains authoritative hydraulic data for floodplains and floodways.

80. Other Areas:
    - Other Areas - Areas not subject to a 1% annual chance flood, with special flood hazard areas of different types.
