NOTES TO USERS

This map is for use in conjunction with the National Flood Insurance Program. It does not represent any other authority or jurisdiction. It is a planning tool and does not indicate an endorsement of the Federal Emergency Management Agency for any purpose.

Special Flood Hazard Area formerly protected from the 1% annual chance flood by flood control shown below should be used in conjunction with the FIRM or as a basis for flood control planning for this jurisdiction.

Boundaries of the Floodway are shown on the FIRM for this jurisdiction. The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of obstructions in order to discharge the 1% annual chance flood without unduly changing its flow. Areas of Special Flood Hazard include Zones A, VE, AH, A1-A99, AO, and AH. Special Flood Hazard Areas are subject to inundation by the 1% annual chance flood.

To obtain current elevation, description, and/or location information for the floodplains and floodways that were computed at cross sections and interpolated between the Base Flood Elevation value where uniform within zone; elevation boundaries. These differences do not affect the accuracy of this FIRM.

FEMA Map and/or digital versions of information shown on this FIRM was provided in digital format by the State of State Plane Mississippi West FIPS 307-447. Differences in Geographic coordinates referenced to the North American Suffix Base Flood Elevations shown above should be used in conjunction with the FIRM or as a basis for flood control planning for this jurisdiction. The floodplains and floodways that were computed at cross sections and interpolated between the Base Flood Elevation value where uniform within zone; elevation boundaries. These differences do not affect the accuracy of this FIRM.
